Profile

PhD candidate in computer science, expecting to graduate in August 2020. My research focusses around the intersection between (hyper)graph problems, optimization, machine learning, quantum and high-performance computing. I have extensive experience designing and implementing hybrid quantum-classical algorithms, with particular interest in variational and decomposition-based approaches (including multilevel).

Peer-reviewed Publications

Zain Saleem, Kaiwen Gui, **Ruslan Shaydulin**, Martin Suchara. Comparing Constrained and Unconstrained Quantum Approximate Optimization Algorithms. In *Proceedings of the 2nd International Workshop on Quantum Resource Estimation (QRE 2020)* (co-located with *International Symposium on Computer Architecture (ISCA) 2020*) (to appear).

Ruslan Shaydulin, Caleb Thomas, Paige Rodeghero. Making Quantum Computing Open: Lessons from Open-Source Projects. In *Proceedings of First International Workshop on Quantum Software Engineering (Q-SE 2020)* (co-located with *ICSE 2020*) (to appear). Preprint: [arXiv:1902.00991](https://arxiv.org/abs/1902.00991)

Sami Khairy, **Ruslan Shaydulin**, Lukasz Cincio, Yuri Alexeev, Prasanna Balaprakash. Learning to Optimize Variational Quantum Circuits to Solve Combinatorial Problems. In *Proceedings of Thirty-Fourth AAAI Conference on Artificial Intelligence (AAAI-20)*, 2020. **Acceptance rate: 20.6%**

Education

Clemson University, SC

Summer 2020 (expected)

PhD candidate in Computer Science, advisor: Ilya Safro

Master of Science in Computer Science en route to PhD

Fall 2019

Research in algorithms, high performance computing, big data analysis and quantum computing

Relevant coursework: Design & Analysis of Algorithms, Data Mining, Distributed & Cluster Computing, Parallel Architecture, Network Science

Moscow Institute of Physics and Technology

Summer 2016

Department of Control and Applied Math

Bachelor of Science in Applied Mathematics and Physics

Minor: Computer Science and Data Analysis

Work Experience

Research Intern, IBM Research – Quantum

Summer 2020

- Working on Clifford circuit optimization under the supervision of Dmitri Maslov

Intern, Quantum Artificial Intelligence Lab (QuAIL)

Spring 2020

NASA Ames Research Center (KBR)

- Developed novel analysis connecting the symmetries in problem instance structure to the performance of Quantum Approximate Optimization Algorithm under the supervision of Salvatore Mandra

- Performed extensive numerical simulations using HPC resources

Research Aide, Argonne National Laboratory

Summer 2018, 2019

- Developed quantum-accelerated frameworks for network community detection and graph partitioning under the supervision of Yuri Alexeev
- Co-authored 6 papers on quantum optimization and machine learning (5 first author)
- Contributed to multiple proposals

Proposal Contributions

National Science Foundation (NSF) Quantum Algorithm Challenge

Spring 2020

PI: Yuri Alexeev

Defense Advanced Research Projects Agency (DARPA) Optimization with Noisy Intermediate-Scale Quantum devices (ONISQ)

Spring 2019

PI: Chris Monroe. Contributed sections with co-PI Yuri Alexeev

Defense Advanced Research Projects Agency (DARPA) Optimization with Noisy Intermediate-Scale Quantum devices (ONISQ)

Spring 2019

PI: Tom Noel. Contributed sections with co-PI Yuri Alexeev

Defense Advanced Research Projects Agency (DARPA) Optimization with Noisy Intermediate-Scale Quantum devices (ONISQ)

Spring 2019

PI: Ilya Saфро

Department of Energy (DOE) Quantum Computing Application Teams (QCAT)

Summer 2018

PI: Yuri Alexeev

Contributed Talks and Posters

Quantum Computing Tutorial *Argonne National Laboratory*

Jun 15, 2020

Led [a tutorial on Quantum Approximate Optimization Algorithm](#).

SIAM Conference on Parallel Processing for Scientific Computing (PP20) *Seattle, WA*

Feb 13, 2020

Gave talk "Multilevel Hybrid Quantum-Classical Algorithms on Graphs"

Information Science and Technology Institute Seminar *Los Alamos National Laboratory*

Nov 26, 2019

Gave talk "Practical Optimization on Near-term Quantum Computers"

Supercomputing '19 *Denver, CO*

Nov 17-22, 2019

Gave talk "Hybrid Quantum-Classical Algorithms for Graph Problems: Forging a Path to Near-Term Applications" at the [Clemson booth](#) and at the [SC Theater](#)

Mathematics and Computer Science Seminar *Argonne National Laboratory*

Nov 15, 2019

Gave talk "Practical Optimization on Near-term Quantum Computers"

Quantum Computing Seminar *Oak Ridge National Laboratory*

Nov 4, 2019

Gave talk "Practical Optimization on Near-term Quantum Computers"

International Green and Sustainable Computing Conference (IGSC 2019) <i>Alexandria, VA</i> Presented poster "Reinforcement Learning for Quantum Approximate Optimization"	Oct 22, 2019
Chicago Quantum Exchange Meeting <i>University of Chicago</i> Presented poster "Practical Quantum Approximate Optimization"	June 12, 2019
SIAM Conference on Computational Science and Engineering (CSE19) <i>Spokane, WA</i> Presented poster " Quantum Local Search for Graph Community Detection "	Feb 25-28, 2019
Quantum Computing Tutorial <i>Argonne National Laboratory</i> Gave talk " QAOA Algorithm Introduction "	Dec 10-11, 2018
Supercomputing '18 <i>Dallas, TX</i> Gave talk "Community Detection Across Emerging Quantum Architectures" at Clemson booth	Nov 11-16, 2018
Quantum Computing Workshop <i>Argonne National Laboratory</i> Presented preliminary results on " Machine Learning on Near-Term Quantum Computers "	Jul 25-27, 2018
32nd Clemson Mini-Conference on Discrete Mathematics and Algorithms <i>Clemson University</i> Presented poster "Relaxation-Based Coarsening for Multilevel Hypergraph Partitioning"	Nov 4, 2017
58th Scientific Conference <i>Moscow Institute of Physics and Technology</i> Gave talk "IPC (Inter-Process Communication) in OS X"	Nov 23-28, 2015

Leadership and Service

Requested Reviewer (peer review)

- [Quantum](#) journal
- IEEE Transactions on Computers

Supercomputing '19 <i>Denver, CO</i> Student volunteer, run tutorials, technical program session and Birds-of-Feather	Nov 17-22, 2019
SIAM Conference on Parallel Processing for Scientific Computing (PP20) <i>Seattle, WA</i> Led and co-organized a minitutorial " Combinatorial Optimization on Quantum Computers "	Feb 12-15, 2020
SIAM Conference on Parallel Processing for Scientific Computing (PP20) <i>Seattle, WA</i> Co-organized a minisymposium "Recent Advances and Trends in Hybrid Quantum-Classical Algorithms"	Feb 12-15, 2020
Quantum Computing Tutorial <i>Argonne National Laboratory</i> Led and co-organized a hands-on tutorial for Qiskit, a framework for quantum computing	May 14, 2019
Mathematics Teacher, Summer School <i>Kostroma, Russia</i> School administrator, organized extracurricular activities.	Summer 2014

Teaching

Network Science CPSC 8480 *Clemson University*

Fall 2018, 2019

Teaching Assistant responsible for grading and answering students' questions during office hours

Design and Analysis of Algorithms CPSC 8400 *Clemson University*

Spring 2019

Teaching Assistant responsible for grading and answering students' questions during office hours

Algorithms and Data Structures CPSC 2120 *Clemson University*

Spring 2019

Teaching Assistant responsible for running the lab section, grading and answering students' questions during office hours

Mathematics Teacher, Summer School *Kostroma, Russia*

Summer 2014

Created and taught a course on basics of graph theory, combinatorics and number theory to middle and high school students.

Languages and Technologies

C, Python

Prior experience: C++, MATLAB, Objective-C, Swift, Bash, IBM QISKit

Limited prior experience: R, SQL, yacc, bison, AWS, Google Cloud Engine, Rigetti PyQuil

Technologies and tools: Git, Xcode for iOS/OSX UI/Backend, TCP/IP, UNIX/Linux, MPI, OpenMP

Honors and Awards

- International Green and Sustainable Computing Conference (IGSC 2019) student travel award, *recipient*
- Best Student Paper at IEEE HPEC 2019 (of ~50 student papers), *recipient*
- IBM Teach-the-Qiskit-Teacher training program, selected to represent Argonne National Laboratory
- Upsilon Pi Epsilon CS Honor Society, *member*
- Supercomputing '19 Student Volunteer Travel award, *recipient*
- SIAM CSE '19 Broader Engagement Travel award, *recipient*
- Clemson CCIT Supercomputing '17, '18 and '19 travel award, *recipient*
- Clemson Graduate Travel Grant, Spring '19, *recipient*
- Moscow Institute of Physics and technology Abramov scholarship – Top 300 students in the university, based on high academic achievement, *recipient*
