---

## Profile

PhD researcher in computer science. My research focuses around the intersection between (hyper)graph problems, optimization, machine learning, quantum and high-performance computing. I have extensive experience designing and implementing hybrid quantum-classical algorithms, with particular interest in variational and decomposition-based approaches (including multilevel) for optimization.

---

## Work Experience

**Maria Goeppert Mayer fellow – Argonne Scholar, Argonne National Laboratory** **Fall 2020 - Present**

- Working on quantum optimization and quantum machine learning with focus on DOE applications

**Research Intern, IBM Research – Quantum** **Summer 2020**

- Working on Clifford circuit optimization with Dmitri Maslov and Sergey Bravyi (paper in preparation)

**Intern, Quantum Artificial Intelligence Lab (QuAIL)** **Spring 2020**

**NASA Ames Research Center (KBR)**

- Developed novel analysis connecting the symmetries in problem instance structure to the performance of Quantum Approximate Optimization Algorithm in collaboration with Salvatore Mandra, Stuart Hadfield and Tad Hogg (paper in preparation)
- Performed extensive numerical simulations using HPC resources

**Research Aide, Argonne National Laboratory** **Summer 2018, 2019**

- Developed quantum-accelerated frameworks for network community detection and graph partitioning under the supervision of Yuri Alexeev
  - Co-authored 6 papers on quantum optimization and machine learning (5 first author)
  - Contributed to multiple proposals
- 

## Education

**Clemson University, SC** **Summer 2020**

PhD in Computer Science, advisor: Ilya Safro

**Master of Science in Computer Science** en route to PhD **Fall 2019**

Research in algorithms, high performance computing, big data analysis and quantum computing

Relevant coursework: Design & Analysis of Algorithms, Data Mining, Distributed & Cluster Computing, Parallel Architecture, Network Science

**Moscow Institute of Physics and Technology** **Summer 2016**

Department of Control and Applied Math,

**Bachelor of Science in Applied Mathematics and Physics**

Minor: Computer Science and Data Analysis

---

## Contributed Talks and Posters

<b>Quantum Computing Tutorial</b> <i>Argonne National Laboratory</i> Led <a href="#">a tutorial on Quantum Approximate Optimization Algorithm</a> .	<b>Jun 15, 2020</b>
--	---------------------

<b>SIAM Conference on Parallel Processing for Scientific Computing (PP20)</b> <i>Seattle, WA</i> Gave talk “Multilevel Hybrid Quantum-Classical Algorithms on Graphs”	<b>Feb 13, 2020</b>
--	---------------------

<b>Information Science and Technology Institute Seminar</b> <i>Los Alamos National Laboratory</i> Gave talk “Practical Optimization on Near-term Quantum Computers”	<b>Nov 26, 2019</b>
--	---------------------

<b>Supercomputing '19</b> <i>Denver, CO</i> Gave talk “Hybrid Quantum-Classical Algorithms for Graph Problems: Forging a Path to Near-Term Applications” at the <a href="#">Clemson booth</a> and at the <a href="#">SC Theater</a>	<b>Nov 17-22, 2019</b>
--	------------------------

<b>Mathematics and Computer Science Seminar</b> <i>Argonne National Laboratory</i> Gave talk “Practical Optimization on Near-term Quantum Computers”	<b>Nov 15, 2019</b>
---	---------------------

<b>Quantum Computing Seminar</b> <i>Oak Ridge National Laboratory</i> Gave talk “Practical Optimization on Near-term Quantum Computers”	<b>Nov 4, 2019</b>
--	--------------------

<b>International Green and Sustainable Computing Conference (IGSC 2019)</b> <i>Alexandria, VA</i> Presented poster “Reinforcement Learning for Quantum Approximate Optimization”	<b>Oct 22, 2019</b>
---	---------------------

<b>Chicago Quantum Exchange Meeting</b> <i>University of Chicago</i> Presented poster “Practical Quantum Approximate Optimization”	<b>June 12, 2019</b>
---	----------------------

<b>SIAM Conference on Computational Science and Engineering (CSE19)</b> <i>Spokane, WA</i> Presented poster <a href="#">“Quantum Local Search for Graph Community Detection”</a>	<b>Feb 25-28, 2019</b>
---	------------------------

<b>Quantum Computing Tutorial</b> <i>Argonne National Laboratory</i> Gave talk " <a href="#">QAOA Algorithm Introduction</a> "	<b>Dec 10-11, 2018</b>
<b>Supercomputing '18</b> <i>Dallas, TX</i> Gave talk "Community Detection Across Emerging Quantum Architectures" at Clemson booth	<b>Nov 11-16, 2018</b>
<b>Quantum Computing Workshop</b> <i>Argonne National Laboratory</i> Presented preliminary results on " <a href="#">Machine Learning on Near-Term Quantum Computers</a> "	<b>Jul 25-27, 2018</b>
<b>32nd Clemson Mini-Conference on Discrete Mathematics and Algorithms</b> <i>Clemson University</i> Presented poster "Relaxation-Based Coarsening for Multilevel Hypergraph Partitioning"	<b>Nov 4, 2017</b>
<b>58th Scientific Conference</b> <i>Moscow Institute of Physics and Technology</i> Gave talk "IPC (Inter-Process Communication) in OS X"	<b>Nov 23-28, 2015</b>

---

## Leadership and Service

### Requested Reviewer (peer review)

- [Quantum](#) journal
- npj Quantum Information
- IEEE Transactions on Computers
- IEEE Transactions on Quantum Engineering

<b>SIAM Conference on Parallel Processing for Scientific Computing (PP20)</b> <i>Seattle, WA</i> Led and co-organized a minitutorial " <a href="#">Combinatorial Optimization on Quantum Computers</a> "	<b>Feb 12-15, 2020</b>
<b>SIAM Conference on Parallel Processing for Scientific Computing (PP20)</b> <i>Seattle, WA</i> Co-organized a minisymposium "Recent Advances and Trends in Hybrid Quantum-Classical Algorithms"	<b>Feb 12-15, 2020</b>
<b>Supercomputing '19</b> <i>Denver, CO</i> Student volunteer, run tutorials, technical program session and Birds-of-Feather	<b>Nov 17-22, 2019</b>
<b>Quantum Computing Tutorial</b> <i>Argonne National Laboratory</i> Led and co-organized a <a href="#">hands-on tutorial for Qiskit, a framework for quantum computing</a>	<b>May 14, 2019</b>
<b>Mathematics Teacher, Summer School</b> <i>Kostroma, Russia</i> School administrator, organized extracurricular activities.	<b>Summer 2014</b>

---

## Teaching

<b>Network Science CPSC 8480</b> <i>Clemson University</i> Teaching Assistant responsible for grading and answering students' questions during office hours	<b>Fall 2018, 2019</b>
<b>Design and Analysis of Algorithms CPSC 8400</b> <i>Clemson University</i> Teaching Assistant responsible for grading and answering students' questions during office hours	<b>Spring 2019</b>
<b>Algorithms and Data Structures CPSC 2120</b> <i>Clemson University</i> Teaching Assistant responsible for running the lab section, grading and answering students' questions during office hours	<b>Spring 2019</b>

**Mathematics Teacher, Summer School** *Kostroma, Russia*

**Summer 2014**

Created and taught a course on basics of graph theory, combinatorics and number theory to middle and high school students.

---

## Languages and Technologies

C , Python

Prior experience: C++, MATLAB, Objective-C, Swift, Bash, IBM QISKit

Limited prior experience: R, SQL, yacc, bison, AWS, Google Cloud Engine, Rigetti PyQuil

Technologies and tools: UNIX/Linux, MPI, OpenMP

---

## Honors and Awards

- International Green and Sustainable Computing Conference (IGSC 2019) student travel award, *recipient*
- Best Student Paper at IEEE HPEC 2019 (of ~50 student papers), *recipient*
- IBM Teach-the-Qiskit-Teacher training program, *selected to represent Argonne National Laboratory*
- Upsilon Pi Epsilon CS Honor Society, *member*
- Supercomputing '19 Student Volunteer Travel award, *recipient*
- SIAM CSE '19 Broader Engagement Travel award, *recipient*
- Clemson CCIT Supercomputing '17, '18 and '19 travel award, *recipient*
- Clemson Graduate Travel Grant, Spring '19, *recipient*
- Moscow Institute of Physics and technology Abramov scholarship – Top 300 students in the university, based on high academic achievement, *recipient*
